

## WHAT IS KITE?

KITE is an acronym for  
**Knowledge, Innovation,  
Talent, Everywhere.**

## ABOUT KITE

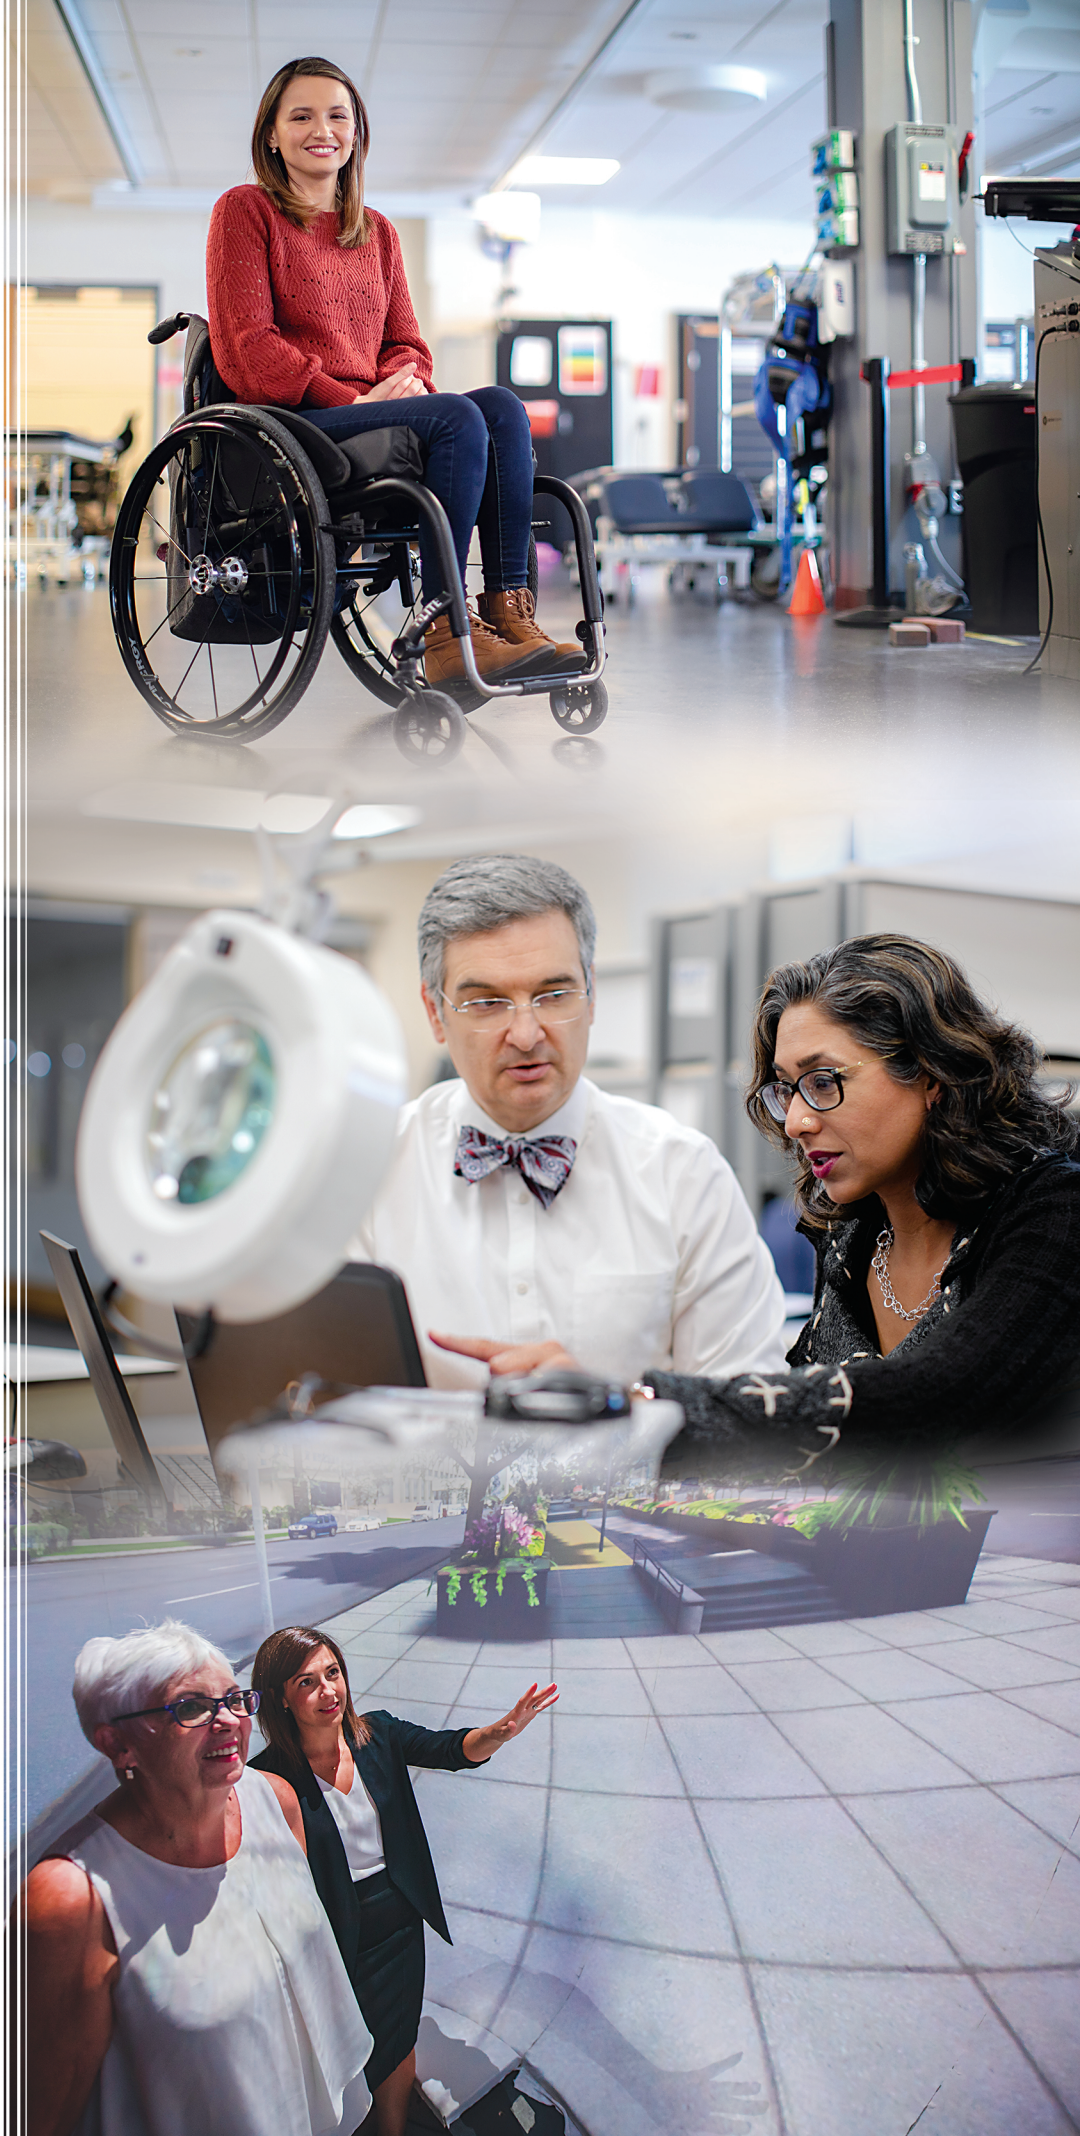

KITE is the world leader in complex rehabilitation science and one of the principal research institutes of the University Health Network, Canada's largest academic research hospital. Our scientists are dedicated to improving the lives of people living with the effects of disability, illness and aging.

## OUR PRIORITIES

Our areas of focus include prevention, restoration, enhanced participation and independent living. We are actively engaged in developing new treatments, devices and products as well as gathering evidence that guides changes to policy and public opinion.

## OUR MISSION

To be a trailblazer in research, education and knowledge translation.
